A Business & Innovation Quiz

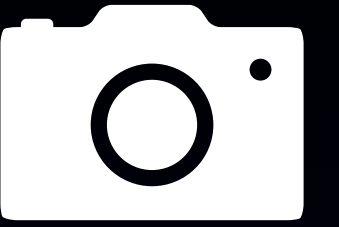

QM: PRAYAG **MOHANTY**

Rules

- There are 20 questions
- Each question carries 1 point (Any part-points will be mentioned)
- No negatives
- Questions with star will be used to break ties (Q 10,11,12,13)
- Any unfair means would lead to instant disqualification

АТБ !

Q1.

Homegrown meat brand **Licious** has recently introduced a certain product range. Priced ₹349 onwards, it'll be available in a “**chick~n & mutt~n**” variant & claims the cook-time for the products is approximately 8 minutes, with a shelf life of 12-14 days.

The ~ refers to the close **resemblance** of the taste and texture of meat.

What is unique about the product?

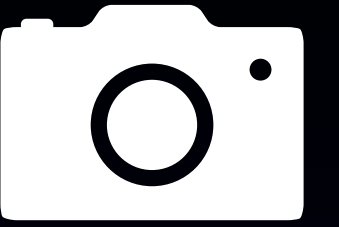

A Licious® Brand

UN CRAVE™

CHICK~N
SEEKH
KEBAB

Q2.

In 2018, Samsung invented a robotic butt which can simulate and exert pressure.
What's the purpose?

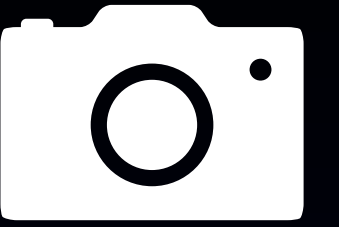

Q3.

In 1917, the Hall brothers were running a **stationery store** in Kansas City selling tissue **paper** for the upcoming holiday season. Rollie Hall improvised, leading to the development of a new product. Within two years, they had established a world-famous company with this product.

Give the name of the company (also name the product for brownie points)

Q4.

The object in the image is placed between a serving dish or bowl, and a dining table, usually to protect the table from heat damage. The word for these objects is derived from **their original structure**, although most variants you'll see these days don't have the structural features from which they got their name.

A different object has the same etymology as the above object, except that its name is derived from Hindi/Urdu rather than Latin. Most variants of these objects also do not strictly obey their etymology.

What's the latter object?

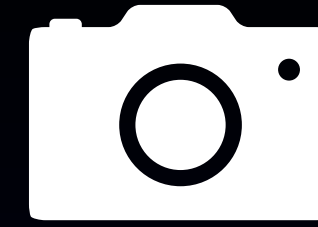

Q5.

After the release of the first trailer, the show's premise was compared to that of the American TV show **Silicon Valley**. However, when the pilot premiered, viewers realized this was not the case. It was a story of trials and tribulations of young entrepreneurs who quit their jobs in order to pursue their start up venture, Pragati.

A **cult classic**, the name of the show refers to the main characters who are aspiring entrepreneurs.

Which show?

Q6.

Which **singer/songwriter** was named after his mother's favourite car?

Behold a rugged off-road 4-wheel drive beast that acts civilized on the road. Shift our new Montero into 2-wheel drive and it cruises around town like a sporty car. Its roomy seats four comfortably. And it's loaded with creature comforts.

But more about the beauty later. First, let's examine the beast.

WHERE DOES A GORILLA GO? JUST ABOUT ANYWHERE IT WANTS TO.

Mud, snow, hills or gullies. You name it, the Montero takes it.

In its 4-wheel drive mode, there's a low gear that will haul you up a hill. And a high gear for quick and nimble going in sticky snow or loose dirt. Super low gearing provides Montero with super climbing ability. And its wide track, allows it to traverse steep terrain.

Town or country, this animal goes just about anywhere.

YOU NEED A GORILLA BECAUSE IT'S A JUNGLE OUT THERE.

From steel top to solid box-type frame and protective steel skid plates, the Montero is well built like a gorilla. Gutsy 2.6 liter, 105 horsepower MCA-Jet engine is the biggest 4-cylinder power plant we offer. So it won't back down in the backwoods. Yet, it's smooth and quiet in the concrete jungles. Because unique Dual Engine Stabilizers reduce vibrations.

Beefy independent front suspension with torsion bars smooths out unbeaten paths. Or roads that have gone to pot holes. And the power-assisted front discs will stop a gorilla in its tracks.

GOT THINGS TO CARRY? GET A GORILLA.

Fold down the rear seat and the Montero becomes a beast of burden. Sporty front bucket seats recline, and the passenger seat flips forward for easy rear seat access. Cargo tie-downs come standard, to secure everything you need to go on a camping trip. Or haul everything back from a shopping spree.

EVERY GIRL NEEDS A GORILLA.

Although it manhandles most anything, the Montero is easily woman handled, thanks to variable assist power steering. Easy to see out of. Thanks to a high top and tinted glass. Easy to shift. Thanks to a sporty 5-speed manual over-drive transmission. Easy to ride in. Thanks to a driver's seat that "floats" on a shock absorber. And it's easy to look at. Thanks to a nifty two-tone paint job and 15-inch stylish spoke-type wheels with all terrain radial tires. And it's all standard. Thanks to Mitsubishi.

ALL THESE STANDARD FEATURES MAKE IT QUITE AN ANIMAL.

Every gorilla comes loaded with standard features like: 2.6 liter, 105 horsepower MCA-Jet engine. 5-speed manual overdrive transmission. Independent front suspension with torsion bars. Variable assist power steering. Manual free-wheeling hubs. Protective skid plates. Driver's suspension seat. 15" styled spoke-type wheels with all terrain radial tires. 4-passenger seating plus big cargo area. Plus dozens more standard features for only \$9,229*.

YOU CAN EVEN BEEF UP A GORILLA.

We offer the Sport Option Group with limited slip differential, automatic free-wheeling hubs, headlamp washers, rear wiper/ washer, accent stripe and an AM/FM/MPX cassette radio with four speakers. That's a lot of gorilla for only \$721* more. You might say you'll go ape over it. For your nearest dealer, call (800) 447-4700.

*MSRP. Dealer's suggested retail price. Excludes dealer fees, taxes, license, title, and other available equipment. Actual dealer price may vary. ©1991 Mitsubishi Motors Corp.

AC-BEVE 30-11-18181 MONTERO 30 TAKES YOU WHERE YOU'VE NEVER BEEN BEFORE.

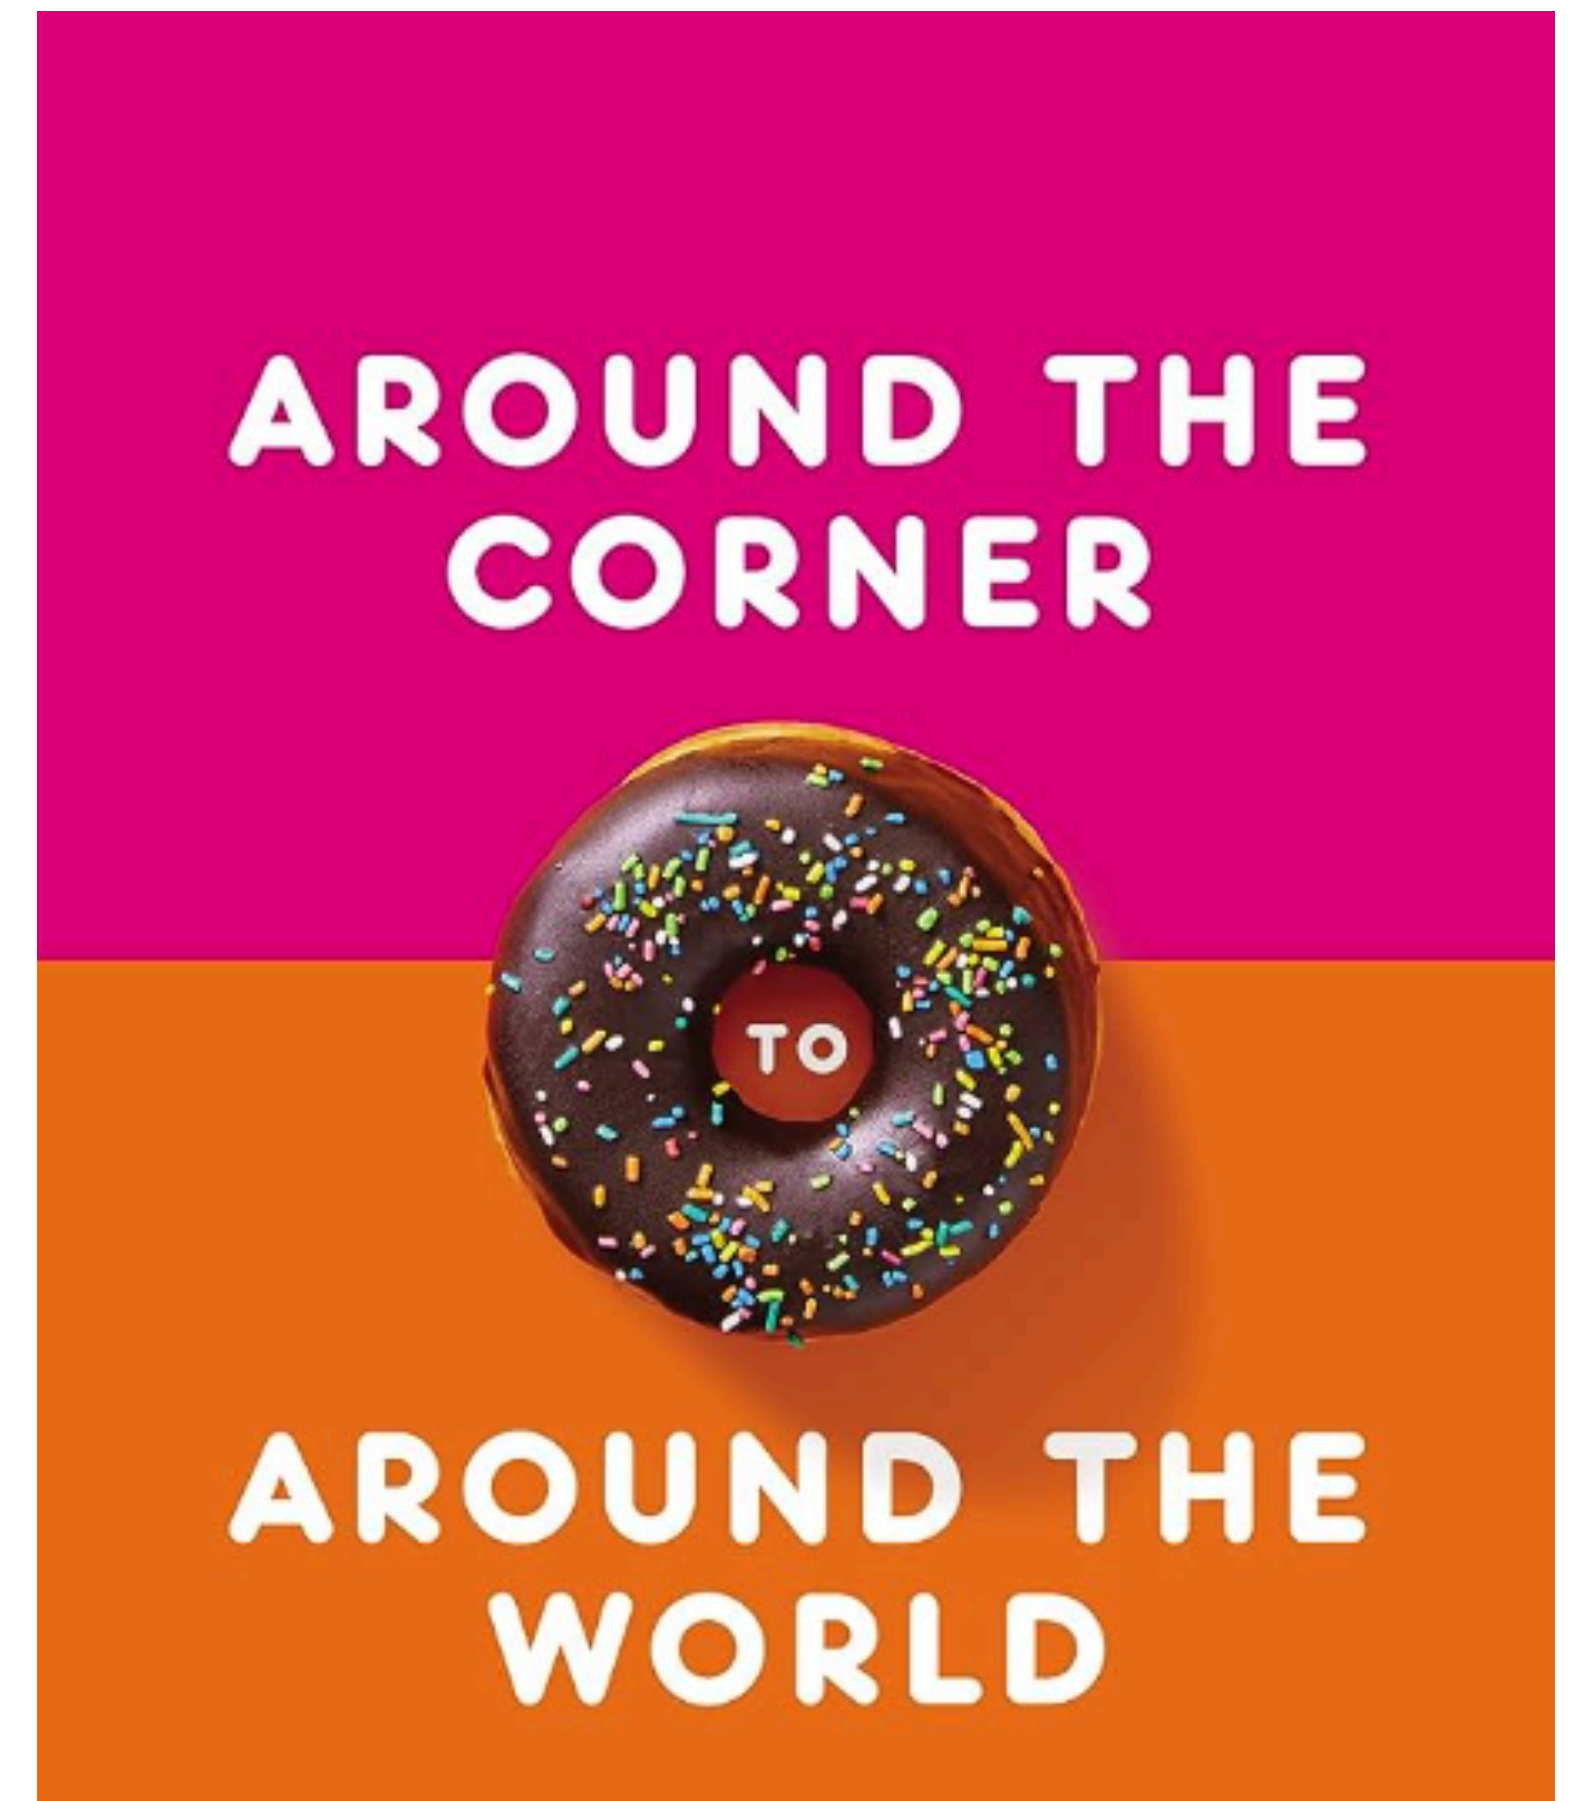

**MEET MITSUBISHI MONTERO,
THE URBAN GORILLA.**

Q7.

Which **brand** would you associate with this book?

Q8.

- The number, denotes the generation
- "Plus"/"Max" indicates a physical larger model of the same generation
- "Pro" indicates the higher end model
- "S" used to denote a slight upgrade

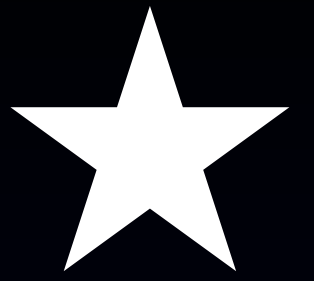

What naming convention is being talked about ?

Q9.

While it is best known for its iconic plastic blocks, this company's also the world's largest manufacturer of tyres, producing more than 381 million tyres annually, as per the Guinness Book of World Records.

These small tyres are used in various sets, including cars, trucks, and even bicycles. **Which company?**

Q10.

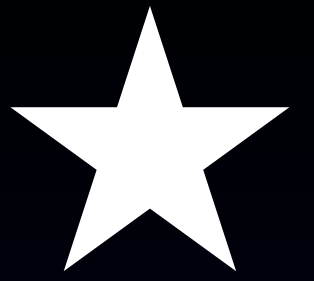

Because of the **new technologies** adopted by the common people a certain ‘profession’ has been reduced to great extent in Kerala (and India, in general).

Now under 10 cases are being filed annually in each district in regards with this type of incident. Several years ago it was said there were experts who gave training to perform such **crimes**.

What type of crimes? What is the reason behind the decline in these crimes?

Q11.

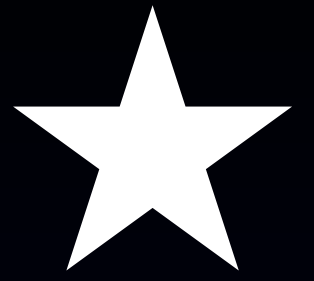

Pixmob is an LED consultant based in Montreal, Canada. Using state of the art **customizable LED** solutions, Pixmob is one of the leading names in its field. Recently they came up with an ingenious method to control their effects.

Using controllers to project infrared light at the receivers all around them, they essentially "paint the room" and control the entire setting thus eliminating the possible threat of position changes of the receivers midway. This is a departure from previous similar systems that were coded according to location

Where have we recently seen these improved solutions?

Q12.

In the 1920s, a company featured a puzzle advertisement on the back of a weekend newspaper inviting consumers to send in the completed puzzle to win a prize of a branded pincushion in the shape of a flour sack. Previously, the company's all male advertising department had dealt with customer mail and questions. Surprised by the unprecedented number of responses, the company decided to turn to B.

B was made the female chief of correspondence for the company. Her first name, was chosen for it's **wholesome, cheerful** sound. She shares her first name with a **younger, quintessential "girl"** next door that has been around **since 1940s**.

Q13.

The name of this Carnatic raga translates to '**lord of the forest**'.

It would also be familiar to us as the generic title of a milk product, which is marketed in India under a brand owned by Bunge (which they bought from **HUL**)

What name?

Q14.

The Pula is the currency of Botswana.

Pula literally means _ _ _ _ , because _ _ _ _ is very scarce in Botswana - home to much of the **Kalahari Desert**.

What does Pula mean?

Q16.

This company was founded by Ankur Jain, an entrepreneur who moved from USA in 2008 and wanted to introduce **craft beer** in India.

The name does not stand for anything literally, however colloquially it is what North Indians would call their **brother** or friend which sounds **similar to beer** in Italian, and 91 represents India's Country Code. The reverse B in the logo represents a spirit of irreverence. The monkey mascot was designed considering the urban millennial & as a playful identity.

Which popular beer brand?

Q17.

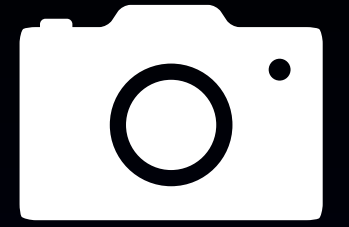

X is India's first semi-permanent hair color brand. They also appeared on Shark Tank S2.

After a lot hit and trial regarding their name, the logo, the initial color range, the team finally decided to go ahead with **X**, inspired by the iconic colors of the birds of _____.

The name is a pun on the place of contentment/fulfilment and the hair colouring.

Identify X

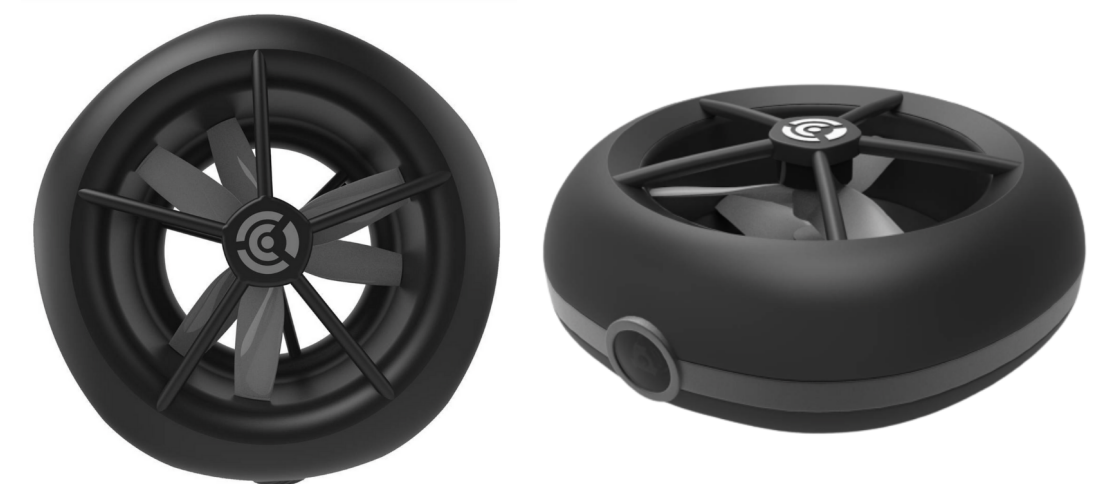

Q18.

Developed by Cleo Robotics, this is the world's first bi-rotor ducted drone designed and engineered for safe operation indoors, in confined spaces and GPS denied environments.

Due to its **shape**, its name is a portmanteau of the product with a food item.

What's the name?

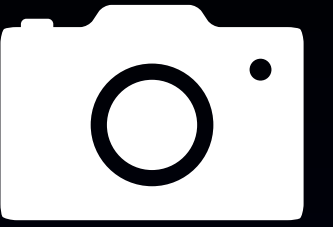

Q19.

Initially launched only in the UK, in the early 2000s, this media service was known as "2580". Mobile users would dial "2580" on their phone, hold it up **toward** the music and then wait for a SMS with the song title and name of the artist. On September 2018, it was **acquired** by a tech giant which is the world's fourth-largest smartphone manufacturer for a reported \$400 million.

Identify this service.

Q20.

A month ago, Lays released a campaign involving 807 goats from an American ranch. Why?

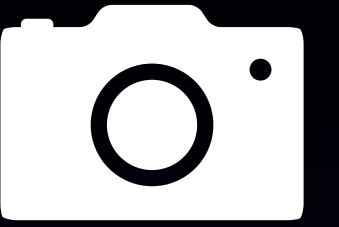

(Video follows)

The background features a dark blue gradient with several overlapping, wavy, mountain-like shapes in a slightly lighter shade of blue. The word "ANSWERS" is centered in a large, white, serif font.
